

# VySoft Systems

---

## **Practical Training / Internship for Electrical, Electronics, Microelectronics & Computer Engineering Students**

*Johor*

We are recruiting Interns for Practical / Industrial Training for the duration of 3 to 6 months.

### **Responsibilities:**

Trainees will be assigned to carry out software and hardware development projects.

### **Requirements:**

- Candidates must be pursuing a Diploma or Bachelor Degree in Electrical, Electronic, Microelectronic, Computer Engineering or equivalent.
- Duration of training is 3-6 months (depending on the trainees' training requirement).
- Able to work independently as well as in a team.
- Knowledge in PCB design using Orcad / Protel (Altium) and embedded systems is advantageous, but not absolutely necessary. Training will be provided.

### **Organization Activities:**

VySoft Systems is a research and development (R&D) company providing consultancy, engineering and software solutions for the electronic manufacturing and semiconductor sector.

Please send in your resume/application to [hrd@vysoft.com.my](mailto:hrd@vysoft.com.my) (preferred) or mail to:

VySoft Systems  
864-A, Jalan Teratai 36/17,  
Indahpura, 81000 Kulai,  
Johor.

**Application deadline:** 31 October 2013.
